

Diesel generator configuration list

Serial number	Product Name	Model & Description	Manufacturer	quantity	price
---------------	--------------	---------------------	--------------	----------	-------

1	engine	Brand: Select by brand	Select by Brand	1 unit	Included units
2	Controller	Brand: Mingbei	Mingbei	1	Included units
3	Alternator	Model: GF800	Lugao	1 unit	Included units
4	Fuel System	Original standard	Original factory	1 set	Included units
5	Oil filter	Original standard	Original factory	1 set	Included units
6	Air Filtration	Original standard	Original factory	1 set	Included units
7	Cooling system	Original standard	Original factory	1 set	Included units
8	Start the system	Dual power supply fully automatic original factory standard	Original factory	1 set	Included units
9	Charging System	Original standard	Original factory	1 set	Included units
10	Muffler	Original standard	Original standard	1	Included units
11	Structure formation	The unit adopts an integral structure. The overall structure is mainly made of steel plates. Power and generator connection base All of them are equipped with shock-absorbing devices. Radiator blade cooling fan and electric All battery chargers are equipped with protection.Cover to prevent hard objects from getting caught and damaged.	Lugao Power	1 set	Included units
12	Machine information	Generator manual, engineInstruction manual, warranty card,And supporting tools.	Original factory preparation	1 set	Included units

900KW Low noise technical parameters are as follows

Diesel generator set	Unit Model	power	
	GF-900	900KW	
	Output voltage (VAC)		400
	frequency		50HZ
	Power Factor		0.8(hysteresis)
	Dimensions	Length × width × height (mm)	5610+2440+3000
	Current		1440A
	brand		Weichai 12M33D1108E200
	Diesel engine power KW		1108KW
	Number of cylinders		12
	Rated speed		1500r/min

diesel engine	Cooling method	Closed loop water cooling
	Startup method	Electric start
	Oil supply method	ESC
	Emission standards	National Second
	Oil consumption rate	≤1g/kwh
	Arrangement	In-line
AC generator	brand	Mindong Walch
	model	GF900
	Generator power	900KW
	Rated voltage(VAC)	400
	Wiring method	Three-phase four-wire
	Steady state voltage regulation	±0.5%
	Transient voltage regulation	±15%
	Steady state frequency regulation	≤1%
	Frequency stabilization time	≤3S
	Overcurrent	3-5le=5S
	Overload capacity	1.51e≥2min
controller	Pressure regulating system	AVR automatic adjustment
	brand	Chongqing Mingbei
	model	6110N
	Voltage	24V
